Re: Gonzales, Michael Ray**May 10, 2016****Page 2**

On April 11 and 15, 2016, the offender submitted urine samples for the purpose of substance abuse testing at ADEPT in Colville. Both samples tested presumptive positive for marijuana. On each date Mr. Gonzales signed admission of use forms stating he had used marijuana. The samples were sent to the laboratory for further testing. Lab reports for both samples indicate a positive result for marijuana.

On April 27, 2016, a urine sample was collected and sent to the laboratory for testing by ADEPT Colville for outpatient treatment purposes. The lab report has been received and reviewed, and shows a positive result for marijuana. The treatment provider stated the reported THC level for that sample indicates it is considered a new use incident.

- 3 **Special Condition #26:** You shall abstain from alcohol and shall submit to testing (including urinalysis and Breathalyzer), as directed by the supervising officer, but no more than six tests per month, in order to confirm continued abstinence from this substance.

Supporting Evidence: On April 14 and 27, 2016, urine samples were collected and sent to the laboratory for testing by ADEPT Colville for outpatient treatment purposes. The lab reports for those dates have been received and reviewed, and the reports show a positive result for ethyl glucuronide, indicating alcohol consumption for both sample dates.

The U.S. Probation Office respectfully recommends the Court issue a summons requiring the offender to appear to answer to the allegations contained in this petition.

I declare under penalty of perjury that the foregoing is true and correct.
